

Canadian Centurion Mks.3 to 11 - NATO Pattern

To the best of my knowledge this pattern was only used on vehicles in Germany.

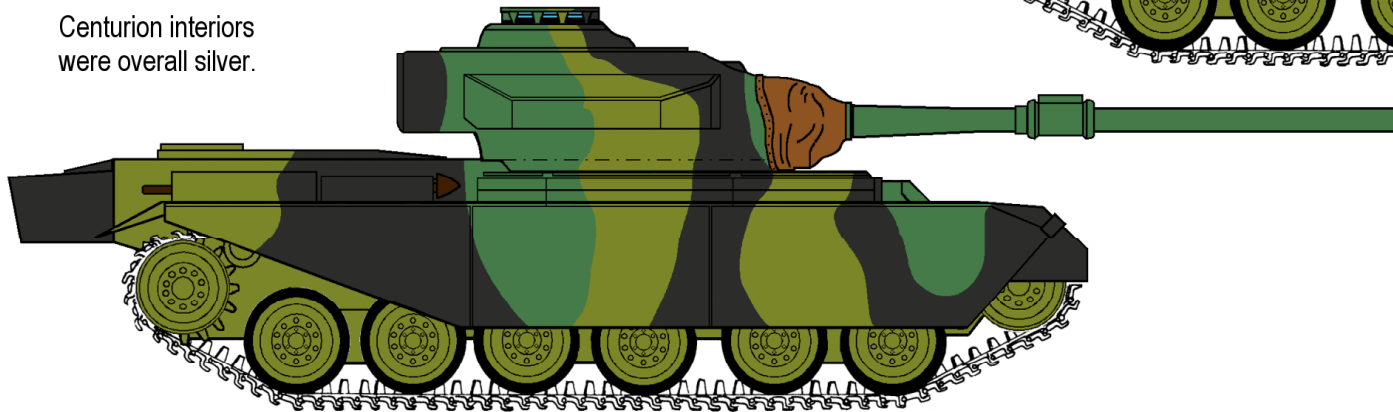

- FS 36081 Black
- FS340098 Khaki Drab
- FS34172 Green

This pattern was used from 1969 until the arrival of the Leopard C1

Centurion interiors were overall silver.

The pattern as shown is the official scheme as laid down in orders. The colours are shown when new. All colours faded considerably over time, the green tinting bluer and the black and khaki merely lightening.
